St Albert's Mission Hospital
Private Bag 9047
Centenary
ZIMBABWE

22nd March 2018.

Ref: Thank you for the Medicines and medical sundries

Dear Friends:

Rotary Club Trieste Nord
Rock No War
Associazione Casa Aperta
Gruppo Missionario Luisa Guidotti
Ass Sanitaria Internazionale
and Help –Zimbabwe.

St Albert's Mission Hospital is a 140 bedded hospital and it is the only hospital in the district of Centenary. In the Province of Mashonaland Central there are three Catholic Mission Hospitals, and two protestant Mission Hospitals, and seven government district Hospitals. Two of the Catholic Hospitals are acting district hospitals that is St Albert's Mission Hospital and St Raphael Mission Hospital known also as Chitsungo Hospital. All mission hospitals are in the rural areas unlike the government hospitals in small urban areas. Your consignment of medicines is used to help the needy in these difficult areas.

I am happy to say that the medicines have arrived. We will stocks that should last us six months of those commodities that were available at Medeor. The doctors and other health workers have been on strike since the first of March 2018. They say they will not go back to work until their requests are met. They want better working conditions, enough medicines and working hospital machines and equipment. Now those who can travel are going to crowd mission hospitals and therefore the little resources we have will run out faster than we expect.

We at St Albert's thank you for your unfailing support.

Nurses happy with medicines

tablets & sensitive tape for sterilization

Boxes with antibiotics and sundries

Nasogastric tubes and catheters

tetracycline eye ointment

Gauze pieces

gentamycin and ceftriaxone injections

Syringes

suction pump

Beclomethason inhaler

sundries on the shelves

Various medicines arranged on the shelves Making operation packs in Theatre.

Some patients to pick up medicines at pharmacy

Your donations towards the hospital are most appreciated because you will be working with us to give service to the community we serve. Our political and economical environment leaves much to desire. We are as vulnerable as those we serve. Our community fails to understand all this and they actually always thing Mission Hospitals can be above the situation. We try to explain our position every time. Thank you so much we will be covered for at least 6months with the commodities we received from you. Unfortunately, Medeor is unable to offer all products because Medicines Control of Authority of Zimbabwe does not accept products from China and most products are actually from there the world over. Wishing you all the best of the risen Lord's blessings, good health and long life, Always grateful

Julia Musariri
